

# STUDIO SPACE

Drone-Integrated Production for Brand & Commercial Campaigns

# Who we are

Studio Space is a Sri Lanka-based production house specialising in drone-integrated brand films, commercials, and strategic visual assets. We partner with real estate developers, tourism brands, automotive companies, FMCG campaigns, and corporate teams to produce cinematic content structured for performance — not just aesthetics.

Every project is built to elevate perception, strengthen positioning, and support measurable business growth.

# Our Direction

To become Sri Lanka’s leading authority in drone-integrated corporate visual production — setting the benchmark for structured, cinematic brand storytelling across regional and global markets.

We engineer visual assets that align creative execution with business objectives.
Through precision production, aerial integration, and deliberate cinematic pacing, we transform strategy into high-performing visual narratives.

# Our Approach

We focus on:

- Strengthening brand perception
- Increasing engagement and inquiry flow
- Elevating visual authority in competitive markets
- Creating long-term reusable campaign assets

Our objective is simple:
every production must serve a strategic purpose.

# Our Services

## Brand Films & Commercials

Narrative-driven cinematic production for launches, campaigns, and brand positioning.

## Drone Aerial Videography & Photography

4K aerial coverage engineered for scale, impact, and authority.

## Professional Videography

Structured motion production for corporate communication, events, and commercial storytelling.

## Cinematic Photography

High-precision photography designed to enhance brand equity and professional presence.

# Signature Process

Our work follows a structured production framework:

## Discovery

Understanding brand objectives and positioning.

## Strategy Planning

Script development, shot mapping, and visual direction.

## Production

Cinematic execution with deliberate movement and aerial integration.

## Metrics

Assets optimized for campaigns, digital platforms, and long-term brand usage.

# Brand Asset Packages

Designed for growing brands ready to elevate their visual presence through structured cinematic production.
