NotebookLM

Creating the Flow of Digital Growth.

OpenFlow helps businesses build modern digital presence through high-impact content, conversion-focused websites, and intelligent automation systems.

DIGITAL ECOSYSTEMS

NotebookLM

Smooth lowercase typography reflects modern technology, simplicity, and continuous digital movement.

Represents clarity, flow, and digital growth.

Represents the flow of digital systems and innovation.

NotebookLM

Logo Mechanics & Usage

Maintain enough spacing around the logo to ensure clarity.
Minimum spacing is equal to the height of the "o".

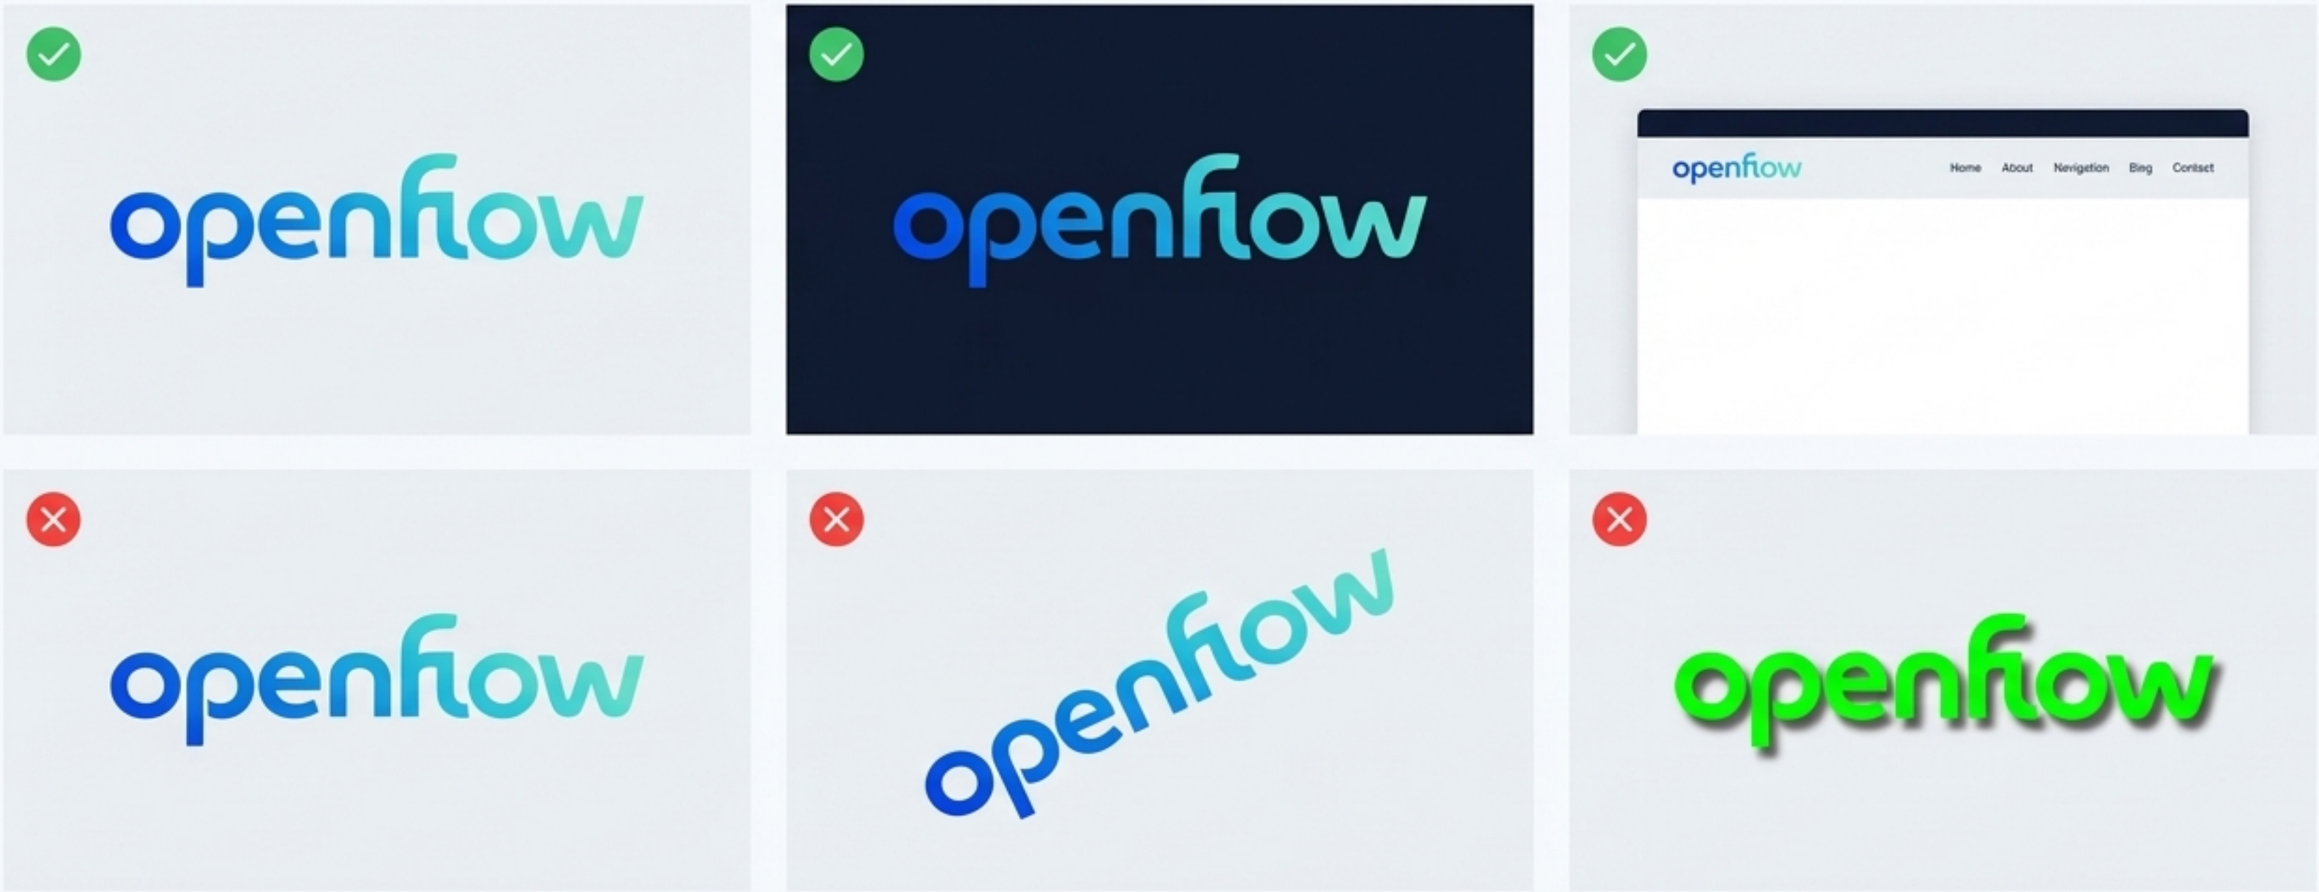

[Websites] [Presentations] [Social Media] [Marketing Materials]

NotebookLM

Application Constraints

The logo should always remain clean and minimal. Do not stretch, rotate, change colours outside the palette, or apply shadows and outlines.

NotebookLM

The Core Colour Palette

A modern tech gradient system.

NotebookLM

Typography System

Typography should feel modern, minimal, and highly readable.

Left Column (The Specimen)

Aa Inter

Used for headings, UI elements, website titles.

[Headlines in Semi Bold / Bold]

Aa Poppins

Used for body text, descriptions, marketing content.

[Body Text in Regular / Medium]

Right Column (The Practical Application)

Building digital systems that flow effortlessly.

OpenFlow utilizes modern technology and clean layouts to ensure that every digital touchpoint is conversion-focused and visually engaging. Typography establishes the rhythm of our communications.

NotebookLM

Brand Design Language

Crucial Rule: Avoid visual clutter and keep designs clean and structured.

Minimal layouts • Smooth gradients • Rounded shapes • Modern typography

Aesthetic Direction: Innovative, tech-driven, modern, and global.
